

Banner Stands

Banner stands are ideal for applications where portability is a key factor. All of banner stands come complete with full colour scuff-proof laminated graphics and carry bags.

Key features include:

- Excellent value
- Lightweight and portable
- Assembly in seconds
- Free carry bag with shoulder strap on all models
- Large range of attractive models to choose from
- Multiple banner stands can be arranged to create larger displays
- Fast turnaround and delivery on all banner stands
- Optional range of lights available to enhance your stand

Banner stands provide a great way of creating smaller, more portable displays. Banner stands can be used individually or you can arrange several stands together to fill a larger area. Some banner stands can be supplied with two graphics to create a double sided display.

Roller banner stands are undoubtedly the easiest systems to erect as the graphic winds into the base of the unit whilst not in use. The base of the roller banner stand contains a tensioned cartridge which works almost like a projector screen.

Graphics for banner stands are printed at high resolution, near photo quality (1440 dpi) onto 125 micron Opal Jet tear-resistant film not paper. All prints are laminated with a matt finish, scuff resistant film to ensure greater durability against moisture, fingermarks and scratches (total graphic thickness to approximately 250 micron).

Delivery on all banner systems is approximately 7 days from receipt or approval of artwork. An express turnaround service is now available for urgent orders at an additional charge of £25.00 plus VAT per stand.

Delivery on any banner stand system is £20.00 plus VAT via next day courier, discounted carriage available on multiple stands.

For larger orders of 10 units or more further discounts may be available - please call to discuss your requirements in more detail

Quickroll Lite Banner

The Quickroll Lite is a budget, lightweight banner stand. The graphic on this system is completely encased & protected when rolled away.

- 850 mm wide (better value than the 800mm wide alternatives from most companies)
- All anodised aluminium body - NOT an ugly painted black base
- Pre-tensioned spring - no need to roll up and store graphics seperately
- Elasticated pole stores inside stand when not in use
- Weighs only 2.5kg
- Graphic is completely enclosed & protected when not in use
- Comes complete with a padded carry bag

£139.00 plus VAT with full colour graphic included

Artwork size 850mm x 2150mm (bottom 200mm is non viewable bleed)

Quickroll Banner

All the benefits of the Quickroll Lite but the base on this display is made from a thicker, more durable aluminium and the roller mechanism is uprated. The increase in weight not only makes this stand less prone to damage during transit but the additional weight in the base makes the unit more stable when assembled. This price includes the supply of the stand, graphic and padded carry bag.

- All anodised aluminium body
- Pre-tensioned spring - no need to roll up and store graphics seperately
- Elasticated pole stores inside stand when not in use
- Fold out leg makes stand small for transport but stable in use
- Visible size: 850mm x 2000mm
- Weight: 5kg (approx)
- Comes complete with padded nylon bag
- Artwork set up size: 850mm x 2150mm (bottom 200mm of artwork is non viewable bleed)

£175.00 plus VAT with full colour graphic included

Quickroll Double Banner

The Quickroll Double features two graphic prints (one on each side). These can be used individually or both at the same time to create a double sided display.

- All anodised aluminium body
- Pre-tensioned spring - no need to roll up and store graphics seperately
- Elasticated pole stores inside stand when not in use
- Fold out leg makes stand small for transport but stable in use
- Visible size: 850mm x 2000mm
- Weight: 5kg (approx)
- Comes complete with padded nylon bag
- Artwork set up size: 850mm x 2150mm (bottom 200mm of artwork is non viewable bleed)

£249.00 plus VAT with 2 full colour graphics included
